

Inventory Control Coordinator

[Apply Now!](#)

The ***Inventory Control Coordinator*** will work under general supervision on tasks that are semi-routine in nature using independent judgment, decision making, and problem solving. The Coordinator is responsible for all activities related to the receipt, usage, movement and storage of inventory needed to meet the production schedules of the material-using departments. The Inventory Control Coordinator monitors materials inventories, processes manufacturing orders from open to close, tracks and reviews progress in conjunction with the manager, and communicates factors that affect schedules. This position accounts for all movement and storage of inventory and performs cycle counting and monthly physical inventories.

Shift: Monday through Friday, 7:00am to 3:30pm

Essential Functions:

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Coordinate and conduct daily cycle count activities within manufacturing areas as defined by established procedures; working with appropriate individuals to resolve issues
- Collect and enter data into various databases, displays data in various forms. Retains daily cycle count documentation and records of inventory system transactions
- Generate daily inventory reports for various individuals and departments. Generate periodic summary cycle count results reports. Assist to inform and communicate material inventory variances, investigations and actions taken
- Analyze, investigate, and assist to correct inventory variances. Perform detailed research into automated inventory system; utilize transaction records to research inventory discrepancies
- Research, recommend, and coordinate changes to Bills of Material (BOM) usage amounts based on historical variances
- Assist to organize and coordinate: corporate, departmental, part-shortage, and running-change physical inventory counts
- According to established procedures with defined limits, make inventory transfers and adjustments to correct minor discrepancies and recommend adjustments to management for major discrepancies. With documented approval from authorized management, make major inventory transfers and adjustments
- Train cycle count team members, provide back-up support and guidance for other department members as needed
- Update/maintain cycle count and inventory control related written procedures
- Operate forklifts, battery charging station, and other powered material handling equipment

Education and Experience:

- High School diploma/GED, or equivalent experience in inventory control and reconciliation
- Must possess a valid driver's license

- Strong math skills including the ability to calculate material usage percentages, bill of material yield factors, and inventory variance trends
- 3 years in a similar manufacturing warehouse environment preferred
- Strong PC skills required. Experience with inventory management systems and ERP/MRP concepts. Experience with QAD a plus
- Six months previous forklift experience preferred
- Strong written and verbal communication skills including ability to interact with individuals and departments across the organization
- Must be able to identify and communicate issues and offer proposed solutions
- Strong organizational and multiple task management skills
